The President,
Malawi-Washington Association,
Washington,
USA.

Through: Mrs Odetta Mapondo
P.O. Box 334
Lilongwe

Dear Sir or Madam,

RE: BOOKS AND PERIODICALS DONATION

We would like to acknowledge, with thanks, a receipt of books and periodicals (list attached) donated to Bunda College of Agriculture Library by the Malawi-Washington Association through Mrs. Odetta Mapondo.

We are very grateful to the timely and valuable donation especially now when the College is finding it difficult to acquire new books and subscribe to periodicals in support of teaching, learning and research. We will endeavor to put the donation to very good use for the benefit of our students and staff.

Bunda College, being an agricultural College, is involved in teaching, learning and research in the following areas: general sciences, human nutrition, food sciences, agricultural engineering, crop sciences, animal sciences, agricultural economics, communication, agriculture education, English fictions, natural resources, environmental sciences, aquaculture & fisheries sciences, horticulture, information & communication technologies,

forestry sciences, crop protection, plant protection, agricultural extension, among many other areas.

We are looking forward to your continued support in future.

Yours faithfully

Professor G.Y. Kanyama-Phiri
